Strategic Sites Inventory Program

Community Competitiveness

One of the largest limiting factors a community faces in winning quality economic development projects in today's highly competitive marketplace is availability of quality sites.

LEOTTA
LOCATION + DESIGN

Strategic Sites Inventory Program

Purpose and Benefits

- Site lacks adequate transportation infrastructure
- Major cost for power/utility service to site
- Large pipeline/electric transmission lines cross site
- Transportation configuration issues
- Site has significant wetlands and/or T&E issues
- Unknown environmental permitting challenges
- Significant archaeological findings show up
- Flood elevation issues
- Community opposition surfaces
- Land acquisition nightmares

Missing one or more critical site selection needs…

LEOTTA
LOCATION + DESIGN

Strategic Sites Inventory Program

Purpose and Benefits

- Sites of the right size and use matched to targets
- Good physical characteristics
- Compatible surrounding land use
- Acceptable base infrastructure access and configuration
- Favorable development conditions
- Relatively unencumbered
- Know about and quantify challenges
- Fair and agreed upon price
- Immediately available for sale or lease (option secured)

LEOTTA
LOCATION + DESIGN

Strategic Sites Inventory Program

Purpose and Benefits

- Increase community competitiveness
- Proactively development of projects (lead generation)
- RFI response readiness
- Better understanding of target industry opportunities
- High-accuracy site matching
- Mitigation of political appeasement
- Land value cost control

Site Screening

- Screen sites to determine practical development of site for intended project use
- Based on visual inspection of four primary screening categories:
  - Parcel Assembly
  - Infrastructure
  - Cultural
  - Potential Wetlands

The four big "deal killers"!

- To mitigate false positive from suitability analysis
